Toastmasters International (<http://www.toastmasters.org>) is a not-for-profit educational organization whose mission is to help people develop their communication skills. The club helps you learn the skills of organizing your thoughts, speaking in front of others and leading effective meetings—skills that will help you become more successful at your job and in life! We offer a safe and fun forum to practice impromptu and prepared speeches with constructive evaluations by your peers. (And the occasional potluck lunch!)
